---

---

---

4. How does AeroForm fit into my reconstruction plan?

---

---

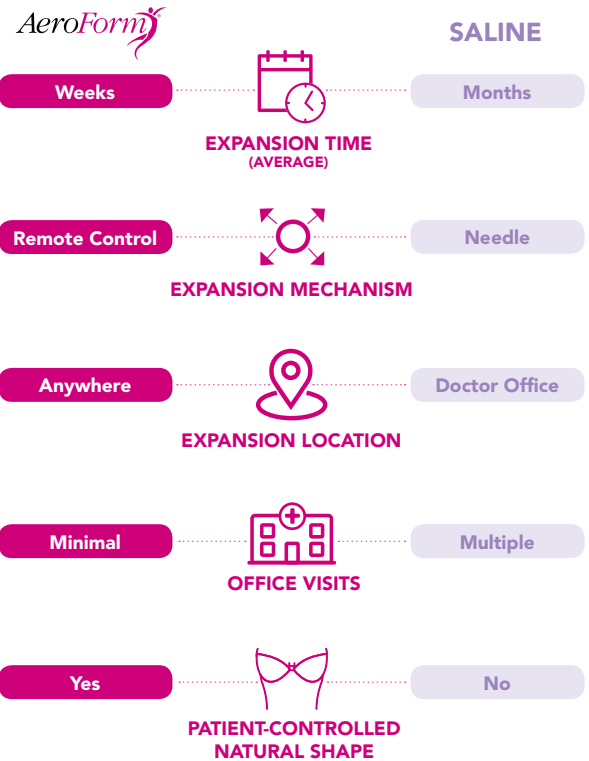

---

**AEROFORM DOSAGE CONTROLLER**

**AEROFORM TISSUE EXPANDER**

## The AeroForm difference

The AeroForm Tissue Expander system is used for soft tissue expansion in breast reconstruction following mastectomy, for the treatment of underdeveloped breasts, and for the treatment of soft tissue deformities in the breast.

The AeroForm Tissue Expander is intended for temporary subcutaneous or submuscular implantation and is not intended for use beyond six months.
